# Make Room for Those Young'uns!

Let's showcase a young ham every month. Share your story! Email me!

THIS MONTH IS . . . . .

## Ms Sitka KG7ZXB

Hi, my name is Sitka. I am 11 years old, and live on the east side of Tucson. My call sign is KG7ZXB. I have been a ham since December 2015. I was introduced to ham radio through the Vail Vaqueros 4-H club. I thought that it sounded interesting so I signed up for the ham radio project after the leader, Miss Lani, had spoken about what ham radio was all about. I have been participating in 4-H for 2 years now and my 3rd year is starting soon. This year, I plan on being involved in archery, cake decorating and ham radio.

The ham radio project had a chance to contact the International Space Station and talk to American astronaut, Kjell Lindgren in August of 2015. It was a once in a lifetime experience and got me motivated to study for my ham radio license. Last year the main focus of the ham radio project was on learning Morse code and we will continue to work on that this coming year.

I have entered a ham radio project each year at the Pima County Fair. In 2015, I built a transceiver with Jerico and in 2016. I built a Morse code straight key. Ham radio has been my best scoring event in the fair. Jerico and I earned a blue ribbon for the transceiver we built and I earned a purple ribbon for my presentation on the Morse code keyer.

I have started my own ham shack in a corner of our garage. I have a J-pole antenna, which Mr. Joe helped me build, up at the side of the house. It can be connected to my handheld, the AM/SSB receiver or the dual band FM transceiver I have. Thankfully, I haven't had to pay for any of this equipment, as I have either earned it or it has been given to me as a gift.

Other than ham radio, I enjoy reading, drawing, sewing, knitting, swimming and studying history and nature. This summer my family has been visiting a lot of the national parks and monuments in Arizona. We have now visited at least half of the parks in Arizona. My favorite was Hubbell Trading Post because it is still a traditional trading post and has not been turned into a convenience store. Also, I found out that Lorenzo Hubbell, the founder of Hubbell Trading Post, is a cousin of Edwin Hubble, even though their last names are spelled differently.

I enjoy being a part of the ham radio community in Arizona and I hope that other young kids earn their license too.

Thank You Ms Sitka! I am very proud

2

of your success! Keep doing great things!

# Boy Scout Adventures!

by Joe Statkevics K3TYE, Asst Scout Master

WN7BSA was again active for one full week from July 18th through July 22nd from Camp Lawton in the Catalina Mountains. During this time the Catalina Council of the Boy Scouts of America played host to about 100 scouts from both the US and Mexico for a week long summer camp.

WN7BSA volunteers set up several electronic and radio related demonstrations, including activities such as an APRS/GPS transmitter hunt; annoy your friends with a high-frequency tweeter and an audio frequency generator; learn about square waves, sine waves, and pulses with an oscilloscope; and of course talk over-the-air using amateur radio.

All of the scouts got to see and participate in the "hands-on" electronic demonstrations and most got to talk over-the-air. It was extremely gratifying to see the smiles on the kids' faces, especially the Mexican youth, when they were able to make contacts in their native language.

Just one human interest side story - on the last day, Friday, a very handsome Mexican lad of about 14 years-old, asked me if he could AGAIN talk on the radio. I of course said "sure, let me set this up." Well, the boy had dirty hands and was eating a candy bar and licking the chocolate off his fingers . . . ugh. He knew the routine, so I dialed up a repeater. But, before I could get a wet paper towel for hand-cleaning, he grabbed the microphone and without so much as wiping his hands, started reading our little script. Oh joy, ya gotta' love it. Needless to say, when I got home, I washed every microphone and every HT we used that week.

Many thanks to the following volunteers who generously donated their time and risked their equipment:

KG7EXA - Chris (Boy Scout)  
KG7WAL - Zane (4H Member)  
KG7WAM - Max (4H Member)  
KG7ZXB - Sitka (4H Member)  
KG7UPI - Armando (Boy Scout)  
KG7IPA - Ray (Boy Scout)  
KG7IPI - Peter (Boy Scout)  
KoWBG - Mathias (Grad Student UoA)  
N3IDN - Lani (4H Club Leader)  
KG7DNN - Armando (Scoutmaster)  
AE7YQ - Bill (Grand Old Man About Radio (GOMAR))  
KD7UIZ - Don (Another GOMAR)  
K3TYE - Joe (Assistant Scout Master)  
Cody - Boy Scout (Soon to get his license)  
Beau - Boy Scout (Soon to get his license)  
Chrissa - Daughter of AE7YQ (Soon to get her license)  
plus a bunch of supportive parents.

Also many thanks to the following repeater systems:

Green Valley - WE7GV  
EAARS - K7EAR  
BART - WD7F and K7UAZ  
OVARC - WoHF

and simplex operators on 145.630 and 146.520.

Listen for us again on October 15th during the annual Jamboree On The Air from the Double V Scout Ranch.

# Gals on the Air!

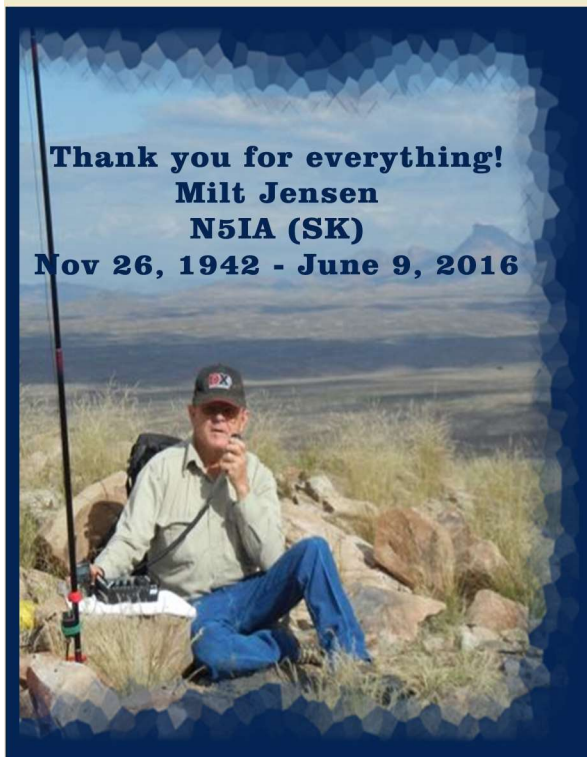

Calling all Gals of any class . . . Join us every Monday night for the Gals Night Net @ 7:30 pm (AZ) on the EAARS system!

Chris N7JND	4th Sunday	
Karl N7DMA	5th Sunday and fill in	

# about the editor . . .

My name is Angie Buchanan, N7EMB. You may know me as Net Control for the Gals Night Net every Monday nights at 7:30 pm on the EAARS system. I started this net because I was hearing of many women earning their ham tickets but didn't hear them on the air. I may not get them to talk as much as I do, but I am getting them on the air! Patience gentlemen, you will soon have company!

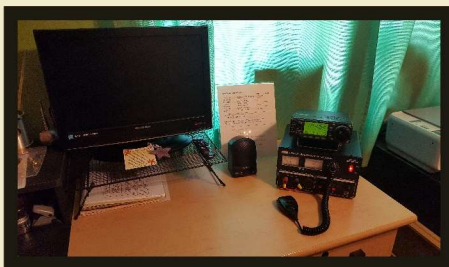

You may also know me as the other half of N7JND, Chris Buchanan. We celebrated our 19th anniversary July 11th. He is the reason I am on the radio! He never pushed me, I am just a curious soul. I could never understand the late hours of turning that HF dial until I earned my general ticket. Wow! I did the asking...Why? How? I want to try! I am so grateful for his patience. Thanks, babe! I love this guy so much!

I am a mother of 2 grown and very successful men. I have four grandsons. I have a great niece and twin great nephews who love to spend time with me, probably because of my energy. I work part-time for an elementary school as a playground monitor. I teach 2nd grade religious ed at our church during the school year. I teach music at my church's Vacation Bible School. I am around kids pretty much all year around.

I earned my Technician license November 2006. I upgraded to General August 2014 and earned my Extra in August of 2015. I can tell you that earning my tickets were probably the hardest feats I have accomplished and pretty proud of them! I love to use my radio knowledge to help our community. I have a team of operators who always support my passion! I do appreciate all those who volunteer to help out in our community. Thank you for all you do! The Lord has a place saved for those who help others!

I have been involved with many organizations since I was a kid. I do have to say that ham radio is one of my favorites. I also enjoy meeting all the hams involved in all we do! Thank you for being part of the ham radio family! You are truly appreciated for what you do! I also have the pleasure of calling many of you, my friends! Talk to you on the air!

**My 'lil ham shack.**

**My icom 706.**

## August 12-14, 2016 Albuquerque Marriott Pyramid North

### 2016 Prizes

*Icom 7300*  
*Yaesu FTM-400DR*  
*Elecraft KX2*  
*Kenwood TH-K20A*  
*2x Wouxun KG-UV8E*  
*Icom IC-T70A*  
*Heil Proset Elite 6*  
**and More Not Listed !!**

Hamfest Fees	
Pre-Registration	\$8.00
Includes 1 Free Prize Ticket	
Registration at Door	\$10.00
Accompanied Under 16	FREE
Prize Tickets (each)	\$2.00
