

Now that I've had a chance to get home and get on my normal computer and check my idea notes, I have a few items to let everyone know about that I couldn't remember before publishing the newsletter.

First, I forgot to mention that my recommended eatery, Kenny D's, is next door to HRO dealer Western Communications. Even more reason to stop by. Thanks to Tom, K7DF, for the reminder.

If you send in a favorite eatery please try to include the following information: Address, do they serve alcohol, and are they firearms friendly. I've had requests for the last two items.

One last reminder that there is a new emailing list dedicated to playing ham radio in the field. This includes Summits on the Air (SOTA), field day type ops, radio in the park, camping and radio, anything that gets you out in the field and using your radio is welcome. Send me a email if you would like to join.

Lastly, a very fun special event opportunity is coming up Sept 8 - 16, Route 66 on the Air! Multiple special event stations will be setup all along the old Route 66, each issuing unique QSL cards.

Google "rt 66 on the air" or start looking at <http://www.w6jbt.org/route66ota.html> for more information.
